PORTABLE

MiniPanel™

ELECTRICAL HEATER

*"**Mini Panel** is just like an extra blanket for my feet and legs. Everyone tries to save money on heating and electric bills, so my thermostat is turned down while resting. **Mini Panel** is perfect for chilly mornings and evenings. Since I work out of my house, I can get to work right away while I wait for the whole apartment to heat up."*
Heidi K., Nashville, TN

Energy Efficient
More energy efficient than average space heaters using only the electrical equivalent of a 150 Watt light bulb.

Cost Efficient
Lowers home and office electric and heating bills and operates with 1/10th the energy of an average space heater.*

Safe and Reliable
Mini Panel has automatic heat regulation and unique soft felt-like surface coating. You can comfortably touch its surface. The build in thermostat keeps the **Mini Panel** temperature between 145^{0}-175^{0} F at all times unit is operating. There is no exposure to coils, odor or carbon monoxide residues. Easily attached supporting legs and sophisticated engineering prevents it from lying flat or tipping over.

150 WATT

Sengoku's new and innovative **Mini Panel Electrical Heater** is just the right solution for providing "gentle heat" for feet and legs – where the air is coldest, near the floor.

Perfect to use under desks and tables, **Mini Panel** is user friendly and extremely energy efficient. The **Mini Panel** is designed to provide your feet and legs with a perfect blend of comfortable heat. Easy to operate and very light weight, **Mini Panel** uses only 150 Watts.

1 YEAR WARRANTY

Technical Data

- 150 WATT
- 120V / 60HZ / 1.3A
- NET WEIGHT 6 LBS
- GROSS WEIGHT 7LBS
- SIZE 15" X 21" X 1"
- UPC: 7-95561-70160-1

Ease of Operation

No messy wall mounting. You can stand **Mini Panel** on any floor surface and use it anywhere there is an electrical source. Perfect for under desks and tables. Just easily attach the supporting legs and plug it in. The internal thermostat automatically adjusts to deliver a steady comfortable radiating temperature — just the right level of warmth for your feet and legs.

Portable

Light weight and non-bulky. You can take it almost anywhere and its sleek design makes for easy storage.

Perfect for the Office Environment

Fits comfortably under desks and tables. The **Mini Panel** provides comfort level and eliminates drafty spots without wasting energy and running up your electrical bill. It is not disruptive in an office environment, it operates with "zero noise".

Better than Fan Space Heaters

No noise, exposed coils, and more energy efficient. Radiates just the right amount of "gentle heat" continuously and comfortably for pennies a day.

Attractive

Easily fits décor with an exceptional sleek and smart design.

*"So simple to use and operate. You don't have to fiddle with long instructions or a hard to read manual. The temperature adjusts automatically with the touch of one switch – no complicated settings. Within 1 minute of unpacking **Mini Panel**, I had the supporting legs attached, and within 3, 4 minutes my feet and legs were cozy."*
Bud. L., Casper WY

*"My wife and I used to argue over the room's thermostat. I liked it warmer, she liked it cooler. **Mini Panel** saved the day! Now we can keep the overall thermostat at a lower temperature (and save money on our heating bill) and I am still comfy with **Mini Panel's** warmth near me."*
